Opening Prices Firm, but Business Failed to

By BROADAN WALL. By International News Service. NEW YORK, April 3.-Next to walking under a ladder, there is nothing more ing obser a ladder, there is nothing more unfortunate to a "bull" in the stock market than an advance in the traction shares. It invariably occurs just before a reaction. "It's the one rule that I find without an exception," remarked a trader

today.

Be that as it may, a rise in the Inter-borough preferred, Brooklyn Rapid Transit and Third avenue was followed by a drop in prices which carried many issues down

In prices which carried many issues down two points.

With cheering assurances from Washington that the eastern railroads would be allowed the full 5 per cent increase in rates, it was anticipated that today's market would show activity and strength. Opening prices were fairly firm, but business did not broaden, and up to noon dullness was the feature.

One broker with nothing else to do counted 135 issues that had not been graded in up to 12:30 o'clock. A Broadway brokerage house had a solitary visitor, a customer who wished to trade in Southern Pacific. After a two-hour walt he left in disgust, for not once had the stock appeared on the tape.

Missouri Pacific Heavy.

morrow will say:

way brokerage house had a solitary visitor, a customer who wished to trade in Southern Pacific. After a two-hour walt lie left in disgust, for not once had the stock appeared on the tape.

Missouri Pacific Heavy.

Canadian Pacific lost two points on selling that came from London. Missouri Pacific was heavy. Much disgust was felt over the fallure of the Rockefeller and Gould interests to come to an agreement. Baltimore & Ohio broke a point and New York Central was under pressure. Union Pacific, Northern Pacific and Reading lacked support. Rock Island issues were active and weak, the common dropping to 33 and the preferred to 52. Steel common broke to 63, where it met support, and copper shares

Total sales for the day, 195,400 shares.

WEEKLY TRADE REVIEW.

Some Irregularity in the Reports; Col-

lections Are Backward. NEW YORK, April 3.-Bradstreet's to-

There is a good deal of irregularity n trade reports. While business in many

lines makes an acceptable comparison with last year, the hub of complaints

lost all their recent snap and seld down with the general list.

Bonds were active, the "when issued" New York City 44s rising to 1013, a full half point above the highest price received by the city at a public sale. Financial institutions and private banks are conspicuous bidders for this issue. Bock Island collateral as broke easily to the new low figure of 34s Wabash refunding 4s moved irregularly, advancing from 573 to 53s and then declining abruptly to 56.

British Consuls Easier.

Broaden as the Day Wore on;

Something Lacking.

At London consols were a shade easier and a \$5,000,000 Ceylon government loan was oversubscribed within an hour, while a British Columbia issue of \$7,500,00 was not a success.

February earnings of the Louisville & Nasiaville decreased \$245,000 net; Jersey Center, \$415,000 net, and Denver & Rio Grande \$149,000 net.

Movements of currency during the week show excess receipts of \$4,800,000 on indicating a fairly strong bank statement tomorrow.

#### Local Securities

The weekly letter of John C. Cutler, r. & Co follows:

The commercial and industrial situation The commercial and industrial situation does not show very much change throughout the United States. Business conditions are irregular. Some lines show considerable activity, while in others quietness prevails. Although the increase in general business is not up to expectations, confidence has not been impaired, so it is believed that there will be some improvement during the spring months. The first step toward the establishment of the new federal reserve act has been taken, and the country has been divided into twelve banking districts and twelve cities have been selected for the location of federal reserve banks. The reserve bank to be established in San Francisco will be District No. 12 and will comprise the territory bounded by California, Washington, Oregon, Idaho, Nevada and Utah, and 514 national banks will subscribe for the capital stock amounting to \$8.115.524. The currency law will probably work quite a change in the banking practice of the country.

In Utah preparations for farming operations continue and the agricultural outlook is considered encouraging. The sheep-shearing season is commencing and good prices for wool are prevailing. There is a fairly satisfactory movement of general merchandise, and though merchants are buying in a hand-to-mouth way, stocks of goods, as a rule, are low, does not show very much change through-

good firtees for wool are prevailing. There is a fairly satisfactory movement of general merchandise, and though merchants are buying in a hand-to-mouth way, stocks of goods, as a rule, are low, so there is room for improvement. More animation in real estate and building is manifest, as the open weather has enabled a number of projects to be gotten under way. In this city conference trading is encouraging, and retail trade is fairly brisk. Visitors will be enabled to see what Utah can produce at the Utah Products show and thus encourage home industry.

During the week the Farmers & Stockgrowers bank moved into its splendidnew banking house.

Practically all the stockholders have paid their \$50 per share assessment on their holdings in Merchants bank. Adding the \$50 assessment to the \$72, the price at which the stock recently sold, makes \$122 per share for the stock.

Dividends amounting to several hundered thousand dollars were paid by a

Dividends amounting to several hun-dred thousand dollars were paid by a number of the institutions, which helps

the money market, as it has been rather firm lately.

Small sales have been made in several local securities, ex-dividends, and at

# The Great **Burlington Route**

The Burlington operates about 9,300 miles of road in 11 States east of the Rockies, with Denver and Billings on the west; Chicago, St. Louis and Peoria on the east, St. Paul and Minneapolis on the north and Lincoln, Omaha, Sioux City, Kansas City, St. Joseph, Des Moines and many other important points between. About 1,600 cities and towns are located along its lines, 38 of which have a population of more than 10,000 each, and 7 of more than 100,000 each.

The Burlington has an average of about 47,000 employes. It operates trains over 19 steel bridges across the Mississippi and Missouri Rivers. In round numbers, its equipment consists of 1,800 locomotives, more than 1,300 passenger service cars and 60,000 freight cars. In its Commissary are more than 40 dining cars and 400 employes. More than 70 complete trains are required to make up its through passenger service.

Every midnight there are 42 through passenger trains moving over Burlington rails between the great cities of the Middle West. Its passenger trains run 49,000 miles and carry an average of 63,288 passengers daily—an annual total of over 23,000,000 people.

In addition to its celebrated passenger service, the Burlington operates under agreement with the United States Government, three special fast-mail trains daily between Council Bluffs and Chicago. In fact, the Burlington has been the official Government mail carrier between these points for 29 years and continues to carry the Utah, California and Asiatic mails between these points solely by virtue of its meritorious service. During a recent period the famous special mail train, No. 7, made this run of 494 miles for 179 consecutive days without the loss of a single minute-while the famous Denver Limited, operating between Chicago and Denver, arrived "On Time" for 138 consecutive days and during a recent calender year reached its destination "On Time" on 355 days.

It is obvious that such train operation means integrity of roadbed, ample power, perfect mechanism, intelligence of command and of obedience-an organization that co-operates.

# FACTS for MEN Are You "Going Back"?

There is no guesswork about the methods I employ. My splendid success is due to the fact that I KNOW HOW. I am qualified for my work by Nature and education, while experience and the application of commonsense principles have taught me the best course to pursue in the treatment of CHRONIC DISEASES on the same principle that you have learned by observation, experience and the application of good "horse sense" to do the line of work you are engaged in to the best advantage. The real proof of my success, however, lies in the claims of former patients that I cured them after other physicians had failed. A trial will convince you.

Do Not Put It Off Any Longer. If you need a Doctor get the Best. My Extraordinary Success.

Is due to my many years of practice, combined with a full knowledge of the most advanced methods employed by the best authorities of the day, which assist me in defining symptoms promptly and the exact treatment to be prescribed. KNOWN RESULTS are what count. That is what every sufferer earnestly desires. For that reason 1 ask you to come to me and learn what can be done for you. Do it teday Don't delay.

Don't Give Up; a Visit Will Tell I simply want the opportunity of showing every sufferer whose case is still
curable what I can do in Chronic Diseases; Varicose Veins; Eczema, Liver,
Kidney and Bladder Troubles,
Diseases, Piles, Fistula, Rupture,
when others have failed entirely.

Graduated, registered and licensed physician, proficient and competent to practice meditine and surgery.

In Case You Have Tried "This or That" Doctor or Remedy Until You Are Utterly Discouraged You Are Just the One I Want to Talk To. Free Consultation. Call if Afflicted. Everything Private.

DON'T LET MONEY MATTERS KEEP YOU AWAY. TERMS Reasonable and Made to Sult the Convenience of the Patient. All my dealings are private and all business absolutely confidential. Hours: 2 a. m. to 8 p. m.; Sundays, 10 a. m. to 12 (noon). Come and have a friendly chat about your condition. No case accepted by mail.

#### MEN CURED SECRETL

are loud in their praise of the promp and positive results obtained at the SALT LAKE MEDICAL INSTITUTE. and positive results obtained at the SALT LAKE MEDICAL INSTITUTE. Fatients who have been cured there relate their experience in these words: "They are specialists of a high degree of skill, and interested in making a cure for every men treated."

And it is true that we work equally as hard upon each and every man to perfect a parmanent cure. Business and professional men, who have made the Salt Lake Medical what it is, are sending their friends to us. We treat the best men of the country, who become our friends.

We specialize in MEN'S DISEASES, and cannot advise too strongly against wasting your time on specialists who try to handle everything and whose only inducement to visit their office is cheupness. Nobody was ever satisfied with cheapness in anything. Cheapness and high-class, scientific work do not go together.

The intelligence of our patrons compels us to stand at the head. The NEW GERMAN REMEDY for blood poison is used in the only scientific way at our offices, and one or two doses bure. We guarantee to cure you in 10 days; no loss of time, pain or delay from work.

Visit our offices, see our large free museum, get some information about your case. We positively cure all special and private diseases of men, and are classed "The Leading Specialists" throughout the west.
